

# ENABLING CIRCULAR ECONOMY

FOR A SUSTAINABLE WORLD

[www.re-teck.com](http://www.re-teck.com)

Li Tong Group (LTG) offers Reverse Supply Chain Management (RSCM) solutions to OEM and enterprise customers in the Technology, Electronics and Telecom (TET) sector. We grow with our customers to expand their worldwide supply chain, evolve and excel along our shared rapid industry lifecycles, and optimize the entire value chain.

LTG has developed a global network of 30 + wholly owned facilities across North America, APAC, EU and MEA, which currently serves more than 100 customers and employs more than 1,200 people worldwide.

#### PEOPLE

1200+ employees

#### CAPABILITY

200,000+ tons annual processing capacity

#### FACILITIES

30+ processing facilities;  
1,200,000 ft<sup>2</sup> floor space

#### EXPERIENCE

22+ years in-depth global experience

***We are the trusted global partner of  
world's top OEMs.***

We have the in-depth product knowledge and engineering expertise in a wide range of electronic product sectors.

## Full Suite of Total Management Services for your End-of-Life / Obsoletes / Excess Assets

**Asset Value Recovery:** Maximize the lifecycle value of your supply chain assets through reuse, parts harvesting and remarketing.

**Total Return Management with Testing, Screening & Repair:** Total solution to consolidate, refurbish and redeploy your products that idle in retail channels, distribution centres, and warehouses.

**Enterprise IT Asset Management:** Ensure our OEM customers recover the highest value from their end-of-life assets.

**Closed-Loop Battery Recycling:** Tackle our customer's difficulties in handling EoL and used batteries, a truly closed-loop solution that maximizes recovery of scarce materials.

**Secure Data Destruction:** On-site and off-site degaussing, data sanitization, and physical destruction of sensitive data.

**Post-Consumer Trade-in/Take-back:** Worldwide programs to help our customers meet the needs of after-sales service and CSR requirements.

*We support many Hi-Tech premium brands  
in reaching their circular goals via our integrated services.*

## STANDARD AND COMPLIANCE

Quality, environmental, health and security systems are integral parts of all of our businesses. Our facilities and processes have been fully certified by ISO, R2v3 & NAID and are extensively tested and audited by registered safety auditors every year.

Headquarter's certifications and qualifications:

For more details about our regional certifications and licenses, please contact us.

## OUR EFFORTS IN SUSTAINABILITY

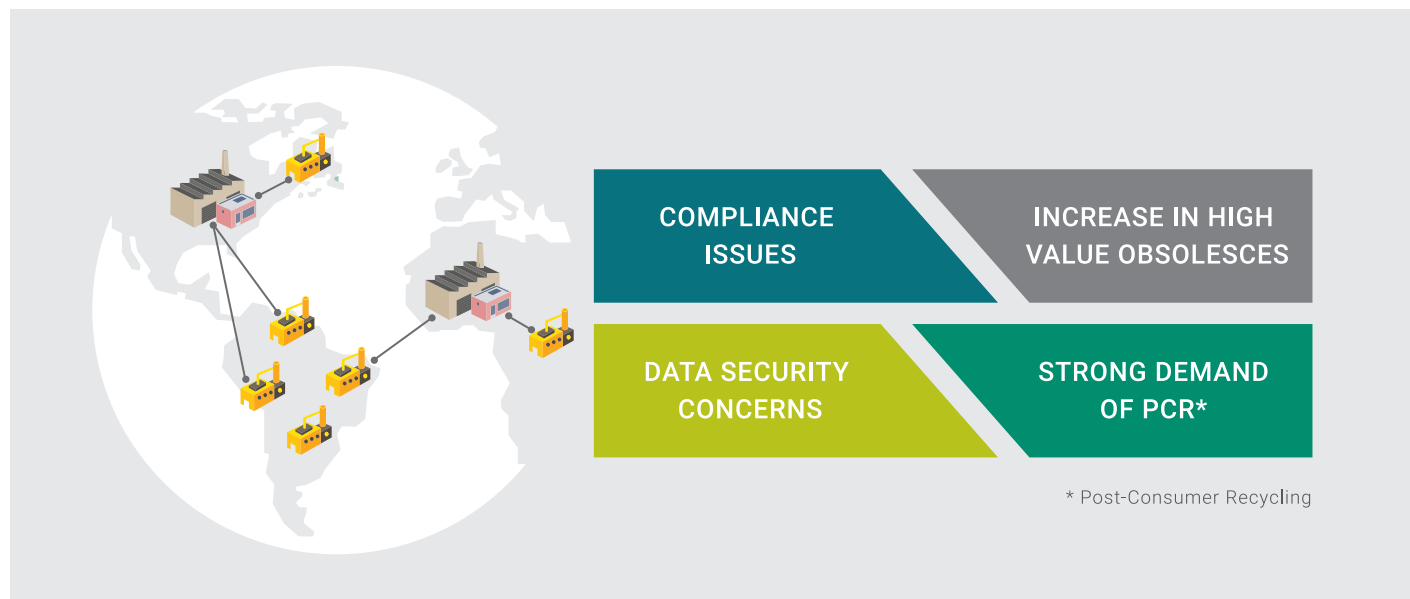

LTG is committed to the best environmental practices to achieve carbon neutral and help our customers reduce their supply chain's carbon footprint.

- Parts harvesting, remanufacturing, and re-use that saves enormous GHG emissions.
- Advisory services to reduce overall product lifecycle emissions for our customers.
- Continuous Tree Planting Program.
- Our machines are not operated by fuel.
- Switched to Green electricity & LED lights.

Hi-Tech OEMs run complex global supply chain networks that are responsible for the creation, production and proliferation of network equipment and billions of devices worldwide. Pressured by the accelerated pace of innovation and subsequent consumer demand, these supply chain networks are facing unprecedented challenges :

## THIS IS WHERE LTG/RE-TECK COMES IN

Our deep understanding of our customers' value chain allows us to help them maximize the lifecycle value of their supply chain assets.

***We build a global service network to cater our customers' global value chain demands.***
